CARING | PERSONAL | UNIQUE

ARE DENTAL IMPLANTS FOR ME?

At Quayside Dental we can evaluate various factors to determine if dental implants are the solution for you. Factors taken in to consideration will include health conditions, risk factors e.g. smoking and gum disease.

LIFE
CHANGING

WHAT OUR PATIENTS SAY

BEFORE

AFTER

I had problem teeth and an awkward bite, a friend recommended Peter at Quayside Dental to me to see if he could help. Peter provided an excellent consultation in which I was able to say that I wanted as natural look as possible. As you can see I am more than pleased with the results and I am now smiling more than I ever did in my life and enjoying it ! I am no longer self conscious of my teeth when talking, smiling and laughing. I can whole heartedly recommend Peter and his team at Quayside!

BEFORE

AFTER

I would like to express my thanks to Peter and the all the team for the utmost professional and expert care given to me throughout the process of my implant treatment. I felt comfortable by a team of people that were always courteous, friendly and obliging at all times. I am extremely happy with my dental work and would not hesitate in recommending Quayside.

CARING | PERSONAL | UNIQUE

REBECCA STEVENSON

Our Implant Coordinator, Rebecca will answer questions you have regarding dental implants and explain the different treatment options, while also advising the payment options that are available. If you have any queries regarding dental implants, fees, scheduling appointments and the initial consultation, you can contact Rebecca or a member of the team on the number or email address below.

Rebecca joined Quayside Dental in January 2003 and qualified as a Dental Nurse in 2005 she then gained her certificate in Dental Sedation Nursing in 2011. Although Rebecca enjoyed her time nursing in the surgery, having the opportunity to spend time with patients one to one, explaining treatment plans and building a rapport was what she loved most and why she was keen to explore the new role within the practice of Implant Coordinator in 2018.

If you are not sure if dental implants are an option for you, and you are not quite ready to arrange a consultation with Peter, call in for a chat with Rebecca. You can call us on **028 7126 6000** or email implantcoordinator@quaysidedental.com.

BEYOND
EXPECTATIONS

PETER HUGHES

Peter has a lot of very happy patients travelling from all parts of the City, County and beyond, who have referred countless friends and family. He also has a referral base of over 100 dental colleagues.

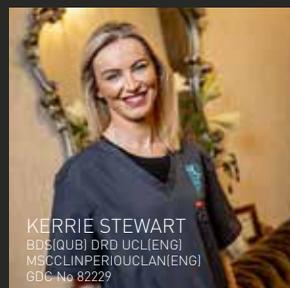

As well as being a respected and very talented implant clinician with a reputation for getting amazing results, he is a relaxed and down to earth golf nut.

GDC No. 66682

KERRIE STEWART

Kerrie joined the Quayside team in 2003. In 2013 Kerrie achieved a Diploma in Restorative Dental Practice with Distinction, and in 2016 she achieved her Masters in Clinical Periodontology, yet again with Distinction. At Quayside Kerrie carries out a wide range of restorative and surgical treatments, including Implants. In August 2018 Kerrie attended the ITI education week in Bern, Switzerland, where she was taught by world renowned specialists in dental implants and has since been an active member of the ITI.

TREATMENT OPTIONS WITH DENTAL IMPLANTS

Missing teeth can be replaced with dentures, bridges or implants. Dental implants are now recognised as the first line of treatment for single missing teeth as they do not involve damaging or relying on neighbouring teeth. The implant solution looks and functions like a natural tooth.

SINGLE TEETH

IMPLANT SUPPORTED FIXED DENTURE

FULL ARCH

IMPLANT RETAINED DENTURE (removable)

ADVANTAGES

CAN IMPROVE QUALITY OF LIFE

Dental implants can provide you with the ability to chew and enjoy the wide variety of foods you love more! They are also easy to care for - like a natural tooth.

HELP TO PRESERVE NATURAL APPEARANCE

Dental implants help to prevent oral bone loss preserving your natural facial contours

MAY GIVE YOU GREATER SELF CONFIDENCE

Because dental implants look and feel like natural teeth with no need for messy adhesives, you will no longer have those uncomfortable moments you can experience with unsupported dentures. This will give you increased confidence in your smile.

BENEFITS

LIMITS THE DAMAGE TO HEALTHY ADJACENT TEETH

Implant restorations normally do not require modification of healthy surrounding teeth as may occur with bridge or crowns.

LONG LASTING SOLUTION

Implants offer the best long term dental solution compared to crowns and bridges which can last up to 7-10 years. Dentures may need on-going adjustments, relining and replacements.

PREVENTS BONE LOSS

Implants help maintain bone volume and your facial profile compared to dentures, crowns and bridges where bone can continue to be lost.

IMPROVE CHEWING ABILITY NATURAL LOOKING SMILE

"Thank you for doing such a fantastic job on my new implant. I can't even tell which tooth it is."

MARY, DUBLIN
